All pictures are stock photos. The condition of the item you will receive is MINT/New. Our grading system is explained in the terms of sale section of our bookseller page. Please feel free to contact us with any questions. Product Description: This is the story of the elite Japanese Army Air force (JAAF) aces that flew the Kawasaki Ki-61 Hien (Swallow), and the Ki-100 Goshikisen in the Pacific Theatre of World War 2. The former, codenamed 'Tony' by the allies, was a technically excellent aircraft, possessing power, stability and a good rate of climb - differing radically from the usual Japanese philosophy of building light, ultra-maneuverable fighters. Its pilots soon realized, however, that the type was plagued by a number of dangerous mechanical issues. Then as the war moved relentlessly closer to Japan's doorstep, a desperate, expedient innovation to the Ki-61 airframe by fitting it with a radial instead of inline engine resulted in one of the finest fighters of World War 2 - the Ki-100. This book uses the latest findings to provide a gripping account of some of the most remarkable and hard-pressed fighter pilots of the war. It reveals how these men, unlike so many of their unfortunate late-war colleagues, could surprise Allied aircraft in high-performance fighters and claim successes in the face of enormous odds.
